Sponsor: Cisco

CERTIFICATION TYPE	DESCRIPTION	FEE
CCIE Certification - Routing & Switching	Certifies expert-level knowledge of networking across various LAN and WAN interfaces, and a variety of routers and switches.	\$7.50
CCIE Certification - Security	Certifies expertise with specific security protocols and components, as well as IP and IP routing.	\$7.50
CCIE Certification - Service Provider	Certifies expert-level knowledge and skill for building an extensible Service Provider infrastructure to deliver rich managed services.	\$7.50
CCIE Certification - Storage Networking	Certifies expert-level knowledge of intelligent storage solutions using multiple transport options over long distances.	\$7.50
CCIE Certification - Voice	Certifies expert-level knowledge of voice-over-IP solutions in the enterprise.	\$7.50
CCIP (Cisco Certified Internetwork Professional)	The CCIP (Cisco Certified Internetwork Professional) provides individuals working in service provider organizations with competencies in infrastructure IP networking solutions. CCIP professionals have detailed understanding of networking technologies in the service provider arena including IP routing, IP QoS, BGP, and MPLS.	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
CCNA	The Cisco CCNA network associate certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks, including implementation and verification of connections to remote sites in a WAN. This new curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills. This new curriculum also includes (but is not limited to) the use of these protocols: IP, Enhanced Interior Gateway Routing Protocol (EIGRP), Serial Line Interface Protocol Frame Relay, Routing Information Protocol Version 2 (RIPv2), VLANs, Ethernet, access control lists (ACLs)	\$7.50
CCNP	CCNP certification validates a network professional's ability to install, configure and troubleshoot converged local and wide area networks with 100 to 500 or more nodes. Network Professionals who achieve the CCNP have demonstrated the knowledge and skills required to manage the routers and switches that form the network core, as well as edge applications that integrate voice, wireless, and security into the network.	\$7.50
CCSP	The CCSP certification (Cisco Certified Security Professional) validates advanced knowledge and skills required to secure Cisco networks. With a CCSP, a network professional demonstrates the skills required to secure and manage network infrastructures to protect productivity and reduce costs. The CCSP curriculum emphasizes secure VPN management, Cisco Adaptive Security Device Manager (ASDM), PIX firewall, Adaptive Security Appliance (ASA), Intrusion Prevention Systems (IPS), Cisco Security Agent (CSA), and techniques to combine these technologies in a single, integrated network security solution.	\$7.50
CCVP	The CCVP certification recognizes the increased importance placed on IT professionals of today who are responsible for integrating voice technology into underlying network architectures. Individuals who earn a CCVP certification can help create a telephony solution that is transparent, scalable, and manageable. Earning a CCVP certification validates a robust set of skills in implementing, operating, configuring, and troubleshooting a converged IP network. The certification content focuses on Cisco Systems CallManager, quality of service (QoS), gateways, gatekeepers, IP phones, voice applications, and utilities on Cisco routers and Cisco Catalyst switches.	\$7.50
Cisco Advanced IP Communications Sales Specialist	The Cisco Advanced IP Communications Sales Specialist demonstrates a strong understanding of Cisco IP communications solutions. With an emphasis on voice solutions for the enterprise, individuals who achieve this certification have the knowledge and skills necessary to effectively assess, recommend, and guide implementation of IP Communications solutions tailored to address specific customer needs.	\$7.50
Cisco Advanced Wireless Design Specialist	The Cisco Advanced Wireless LAN Design Specialist will demonstrate the ability to successfully design solutions using the advanced feature set of Cisco wireless products and based on a validated understanding of radio frequency and antenna theory, 802.11a/b/g standards, site survey and configuration of controllers and APs. Solutions include voice over WLAN, outdoor mesh and secure wireless.	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
Cisco Advanced Wireless Field Specialist	The Cisco Advanced Wireless LAN Field Specialist will demonstrate the ability to successfully install, configure and support solutions using the advanced feature set of Cisco wireless products and based on a validated understanding of radio frequency and antenna theory, 802.11a/b/g standards and support of controllers and APs.	\$7.50
Cisco Advanced Wireless LAN Sales Specialist	Designed exclusively for Cisco Channel Partners, the Advanced Wireless LAN Sales Specialist has demonstrated a strong understanding of wireless LAN features and benefits and the ability to assess customer needs, effectively position and sell Cisco wireless solutions and services.	\$7.50
Cisco Data Center Networking Infrastructure Design Specialist	The Cisco Data Center Networking Infrastructure Design Specialist certification, validates an individual's knowledge of selecting and integrating Cisco Data Center products to design a highly scalable, efficient, and high performing Data Center networking solution based on Cisco Data Center Architecture. Cisco Data Center Networking Infrastructure Design Specialist Professionals understand how to utilize and employ the features and benefits of the Cisco Catalyst 6500 Series Switches, Cisco 4948 Switches, and Cisco Catalyst Blade Switches to create a converged, optimized Data Center network design.	\$7.50
Cisco Data Center Networking Infrastructure Support Specialist	The Cisco Data Center Networking Infrastructure Support Specialist validates an individual's knowledge of installing, configuring, and troubleshooting Cisco Data Center products to maintain a highly scalable, efficient, high performing Data Center Networking environment. Cisco Data Center Networking Infrastructure Support Specialist professionals understand how to deploy and optimize the features and benefits of the Cisco Catalyst 6500 Series Switches, Cisco 4948 Switches, and Cisco Catalyst Blade Switches to provide fast and accurate resolution to network installation and customer service issues.	\$7.50
Cisco Data Center Networking Sales Specialist	The Cisco Data Center Networking Sales Specialists demonstrate an overall understanding of Data Center networking architecture, and the features and benefits of the Cisco Catalyst 6500 Series Switches, Cisco 4948 Switches, and Cisco Catalyst Blade Switch families. Cisco Data Center Networking Sales Specialist professionals understand how the Cisco Catalyst and Blade Switch families of products are used in a Data Center Network environment and can identify the most effective Cisco Catalyst or Blade Switch family product(s) to address specific customer requirements.	\$7.50
Cisco Data Center Storage Networking Design Specialist	The Cisco Data Center Storage Networking Design Specialist validates an individual's knowledge of selecting and integrating Cisco storage products to design a highly scalable, efficient, high performing storage networking solution based on converged architecture. Cisco Data Center Storage Networking Design Specialist professionals understand how to utilize and employ the features and benefits of the Cisco MDS 9000 Series Multilayer Directors and Switches, Cisco MDS 9509 Director Switch, Cisco 9216 Fabric Switch, and Cisco MDS 9120 products to create a high availability storage network design.	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
Cisco Data Center Storage Networking Sales Specialist	The Cisco Data Center Storage Networking Sales Specialists demonstrate an overall understanding of storage networking architecture, and the features and benefits of the MDS 9000 product family. Cisco Data Center Storage Networking Sales Specialist professionals understand how the MDS 9000 products is used in a SAN environment and can identify the most effective MDS 9000 family product(s) to address specific customer requirements.	\$7.50
Cisco Data Center Storage Networking Support Specialist	The Cisco Data Center Storage Networking Support Specialist validates an individual's knowledge of installing, configuring, and troubleshooting Cisco storage products to maintain a highly scalable, efficient, high performing storage networking environment. Cisco Data Center Storage Networking Support Specialist professionals understand how to deploy and optimize the features and benefits of the Cisco MDS 9000 Series Multilayer Directors and Switches, Cisco MDS 9509 Director Switch, Cisco 9216 Fabric Switch, and Cisco MDS 9120 products to provide fast and accurate resolution to network installation and customer service issues.	\$7.50
Cisco Express Foundation Design Specialist	Designed exclusively for Channel Partners, the Cisco Express Foundation Design Specialist develops network planning and design skills for customers that would typically be required of a pre-sales or system engineer. The Design Specialist demonstrates fundamental understanding of the IP networks, routing and switching concepts, and the basic steps required to incorporate wireless and security technologies in the IP Network. The Cisco Express Foundation Design Specialist can effectively assess customer needs, as well as design and sell converged network solutions. This includes application of Cisco-verified best practices for these tasks and use of the various job aids and tools provided to facilitate successful network design and future growth potential.	\$7.50
Cisco Express Foundation Field Specialist	Designed exclusively for Channel Partners, the Cisco Express Foundation Field Specialist develops network implementation and operational skills for customers that would typically be required of a post sales or field engineer. The Field Specialist demonstrates fundamental understanding of the IP networks, routing and switching concepts, and the basic steps required to incorporate wireless and security technologies in the IP Network. The Cisco Express Foundation Field Specialist has demonstrated the skills and knowledge necessary to effectively install, configure, operate and support converged IP networks. This includes application of Cisco-verified best practices for these tasks and use of the various job aids and tools provided to facilitate successful network operations and ongoing optimization.	\$7.50
Cisco Express Foundation Sales Specialist	Designed exclusively for Channel Partners, the Cisco Express Foundation Sales Specialist develops network preparation and planning skills for customer sales that would typically be required of an account manager. The Sales Specialist demonstrates a fundamental understanding of the value of IP networks for business and network architectures featuring Cisco routing and switching offerings, and the basic steps required to incorporate wireless and security technologies into the IP Network. The Cisco Express Foundation Sales Specialist has demonstrated the skills and knowledge needed to sell converged IP network solutions. This includes application of Cisco-verified best practices for these tasks and use of the various job aids and tools provided to facilitate successful network sales and ongoing account growth.	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
Cisco Firewall Specialist	Cisco security certifications focus on the growing need for knowledgeable network professionals who can implement complete security solutions. Cisco Firewall Specialists focus on securing network access using Cisco IOS Software and Cisco PIX and Adaptive Security Appliance (ASA) Firewall Technologies.	\$7.50
Cisco Information Security Specialist	Cisco Information Security Specialists focus on performing the basic tasks necessary to secure networks using the apprentice knowledge of networking gained by Cisco Certified Network Associate (CCNA) certification and the skills learned in Securing Cisco Network Devices (SND). The Information Security Specialist is awarded when the candidate achieves CCNA certification and passes the SND Exam. Upon successful completion of the specialization certification, candidates will receive a letter indicating that they meet the CNSS 4011 training standard.	\$7.50
Cisco IOS Security Specialist	The Cisco IOS Security Specialist demonstrates the hands-on knowledge and skills required to secure networks using Cisco IOS Security features such as IOS Network Foundation Protections (NFP), IOS One-Step Lockdown, IOS Classic and Zone-Based Firewalls, IOS IPsec and SSL VPNs and IOS IPS. Having both IOS Command Line Interface (CLI) and Router and Security Device Manager (SDM) configuration skills are required.	\$7.50
Cisco IP Communications Express Sales Specialist	Designed for Channel partners, individuals who achieve the Cisco IP Communications Express Sales Specialist demonstrate a fundamental understanding of Cisco IP communications solutions, and have demonstrated the knowledge and skills necessary to assess, recommend, and guide the implementation of a basic IP Communications solution.	\$7.50
Cisco IP Communications Express Specialist	The Cisco IP Communications Express Specialist certification validates the fundamental Voice over IP (VoIP) technology skills required to install and maintain multi-service network solutions. Cisco Call Manager Express (CCME), and Cisco Unity Express (CUE) are emphasized in this foundational IP Communications program.	\$7.50
Cisco IP Contact Center Express Specialist	The Cisco IP Contact Center (IPCC) Express Specialist certification validates the comprehensive set of skills and knowledge required to plan, design, implement, and operate the Cisco Unified Contact Center Express (Formerly the Cisco IPCC Express Edition).	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
Cisco IP Telephony Design Specialist	The Cisco IP Telephony Design Specialist certification was developed for those who design IP Telephony multi-service network solutions. Cisco IP Telephony Design Specialists can design a scalable, converged network using QoS, Cisco Call Manager clustering, H.323, MGCP, or SIP signaling protocols, and assess the scope of work required to integrate legacy TDM PBXs and voice mail systems into an existing data network.	\$7.50
Cisco IPCC Express for AMs	(Exam #SEO-88) Exam is only assessment available and is based on same study content as previous exam (SEO-302). Former exam retired but results still accepted.	\$7.50
Cisco IPS Specialist	Cisco security certifications focus on the growing need for knowledgeable network professionals who can implement complete security solutions. Cisco IPS Specialist can operate and monitor Cisco IOS Software and Intrusion Prevention Systems (IPS) technologies to prevent, understand, and respond to intrusion attempts.	\$7.50
Cisco Network Admission Control Specialist	The Cisco Network Admission Control Specialist demonstrates the hands-on skills necessary to install, configure and operate the Cisco NAC Appliance. By applying their knowledge of the Cisco NAC solution, the Cisco Network Admission Control Specialist demonstrates the skills and knowledge needed to effectively identify, isolate and clean infected or vulnerable devices that attempt to access the network.	\$7.50
Cisco Rich Media Communications Specialist	The Cisco Rich Media Communications Specialist certification validates an IT professional's ability to successfully design, implement, and support integrated voice, video, and web collaboration in a converged network.	\$7.50
Cisco Routing and Switching Field Specialist	Designed for Cisco Channel Partners and Resellers, the Cisco Routing and Switching Field Specialist will demonstrate the skills and knowledge required to successfully install, configure, monitor, and support the advanced capabilities of Cisco routing and switching solutions. Individuals who achieve this certification have demonstrated specific expertise in Border Gateway Protocol (BGP), Multi-Protocol Label Switching (MPLS), Quality of Service (QoS), High Availability (HA), WAN optimization, and IP version 6 (IPv6).	\$7.50

### Sponsor: Juniper

CERTIFICATION TYPE	DESCRIPTION	FEE
JNCIA-DX (Associate, DX)	Designed for experienced networking professionals with beginner-intermediate knowledge of the Juniper Networks DX Application Acceleration platform and its deployment.	\$7.50
JNCIA-E (Associate, E-series)	Designed for experienced networking professionals with beginner-intermediate knowledge of the Juniper Networks E-series platforms, this written exam verifies the candidate's basic understanding of Internet technology and related platform configuration and troubleshooting skills.	\$7.50
JNCIS-E (Specialist, E-series)	The JNCIS-E is designed for networking professionals with advanced knowledge of, and experience with, the Juniper Networks E-series platforms. The JNCIS-E exam tests for a wider and deeper level of knowledge than does the JNCIA-E exam.	\$7.50
JNCIP-E (Professional, E-series)	The JNCIP-E is a one-day practical exam designed to validate the candidate's ability to successfully build an ISP consisting of multiple E-series virtual routers. Candidates configure and troubleshoot routing scenarios utilizing various protocols and technologies on E-series platforms.	\$7.50
JNCIA-IDP (Associate, IDP)	Designed for experienced networking professionals with beginner-intermediate knowledge of the Juniper Networks IDP products and their deployment.	\$7.50
JNCIA-J (Associate, J-series)	Designed for experienced networking professionals with beginner-intermediate knowledge of the Juniper Networks J-series products and their deployment.	\$7.50
JNCIA-M (Associate, M/T-series)	Designed for experienced networking professionals with beginner to intermediate knowledge of the Juniper Networks M-series Routers, T-series Routing Platforms, and JUNOS Software, this written exam verifies the candidate's basic understanding of Internet technology and related platform configuration and troubleshooting skills.	\$7.50
JNCIS-M (Specialist, M/T-series)	The JNCIS-M is designed for networking professionals with advanced knowledge of, and experience with, the Juniper Networks M-series Routers, T-series Routing Platforms, and JUNOS Software. The JNCIS-M exam tests for a wider and deeper level of knowledge than does the JNCIA-M exam.	\$7.50
JNCIP-M (Professional, M/T-series)	The JNCIP-M is designed to validate the networking professionals' ability to configure and troubleshoot common routing scenarios. Throughout this 8-hour practical exam, candidates will build an ISP consisting of seven M-series routers and multiple EBGP neighbors. Successful candidates will perform system configuration on all seven routers, install an IGP, a well-designed IBGP, establish connections with all EBGP neighbors as specified, and correctly configure the required routing policies.	\$7.50
JNCIE-M (Expert, M/T-series)	The JNCIE-M is a one-day, 8 hour practical exam designed to validate the candidate's ability to successfully build an ISP network consisting of 10 M-series routers. Candidates are then presented with additional configuration tasks appropriate for an expert-level engineer.	\$7.50
JNCIA-FWV (Associate, FWV)	Designed for experienced networking professionals with beginner to intermediate knowledge of Juniper Firewall/VPN products and ScreenOS software, this written exam verifies the candidate's basic understanding of Internet and security technology and related device configuration.	\$7.50

CERTIFICATION TYPE	DESCRIPTION	FEE
NICDQ	The NICDQ Certificate is the mark of a professional interior designer. It demonstrates that the designer is qualified through education, work experience and passage of the NICDQ Examination to competently practice interior design. Issuance of an NICDQ Certificate number indicates that the designer has met the eligibility requirements of NICDQ.	\$10.50

## Participating Certification Verification Sponsors

### Sponsor: Novell

CERTIFICATION TYPE	DESCRIPTION	FEE
CNA NetWare 5	A Certified Novell Administrator (CNA) provides day-to-day administration of installed Novell networking products, specifically NetWare and eDirectory. CNAs provide companies direct support for software users in various work environments including professional offices and small businesses, work groups or departments, and corporate information services on NetWare 5.	\$7.50
CNA NetWare 6	A Certified Novell Administrator (CNA) provides day-to-day administration of installed Novell networking products, specifically NetWare and eDirectory. CNAs provide companies direct support for software users in various work environments including professional offices and small businesses, work groups or departments, and corporate information services on NetWare 6.	\$7.50
CNE NetWare 5	Certified Novell Engineer (CNE) is the IT industry's leading certification for advanced networking and troubleshooting, specifically on NetWare and Novell eDirectory. A CNE will have broad network support skills that help keep a company's network running efficiently--with less downtime, speciality is NetWare 5.	\$7.50
CNE NetWare 6	Certified Novell Engineer (CNE) is the IT industry's leading certification for advanced networking and troubleshooting, specifically on NetWare and Novell eDirectory. A CNE will have broad network support skills that help keep a company's network running efficiently--with less downtime, speciality is NetWare 6.	\$7.50
CNI	Certified Novell Instructor (CNI) is the world's most renowned technical instructor certification. The CNI can choose their area of expertise--Linux, NetWare or both. The CNI teaches at authorized Novell Training Partner locations. A CNI has access to information on the latest Novell products as well as valuable classroom materials and resources.	\$7.50
Master CNE	Master Certified Novell Engineers (Master CNE) offer a higher level of support for their network environments. They are the multi-solution specialist of the network industry.	\$7.50
NAI	Novell Academic Instructors (NAI) teach certified training courses at authorized Novell Academic Training Partner (NATP) or Novell Technical Institute (NTI) locations. A NAI has access to information on the latest Novell products as well as valuable classroom materials and resources.	\$7.50
Novell CLE 10	The Novell Certified Linux Engineer 10 (CLE 10) takes Linux certification to an entirely new level. This certification builds upon the required foundation of the Novell CLP 10 and helps the candidate master advanced SUSE Linux Enterprise Server 10 administration skills.	\$7.50

## Participating Certification Verification Sponsors

CERTIFICATION TYPE	DESCRIPTION	FEE
Data Protection Professional for UNIX using NetBackup 5.0	Design and implementation of NetBackup 5.0 solutions on UNIX platforms, requires Storage Foundation knowledge	\$7.50
Data Protection Professional for Windows using NetBackup 4.5	Design and implementation of NetBackup 4.5 solutions on Microsoft Windows platforms	\$7.50
Data Protection Professional for Windows using NetBackup 5.0	Design and implementation of NetBackup 5.0 solutions on Microsoft Windows platforms	\$7.50
Data Protection Troubleshooting Specialist for UNIX using NetBackup 5.0	Troubleshooting of NetBackup 5.0 solutions on UNIX platforms	\$7.50
High Availability Designer for Windows using VCS 4.1	Design and customization of Cluster Server 4.1 solutions on Microsoft Windows platforms	\$7.50
High Availability Implementation Specialist for UNIX using VCS 4.0	Implementation and configuration of Cluster Server 4.0 solutions on UNIX platforms	\$7.50
High Availability Implementation Specialist for Windows using VCS 4.1	Implementation and configuration of Cluster Server 4.1 solutions on Microsoft Windows platforms	\$7.50
High Availability Professional for UNIX using VCS 3.5	Design, implementation, and customization of Cluster Server 3.5 solutions on UNIX platforms, requires Storage Foundation knowledge	\$7.50
High Availability Professional for UNIX using VCS 4.0	Design, implementation, and customization of Cluster Server 4.0 solutions on UNIX platforms, requires Storage Foundation knowledge	\$7.50
High Availability Professional for Windows using VCS 2.0	Design, implementation, and customization of Cluster Server 3.5 solutions on Microsoft Windows platforms	\$7.50
High Availability Professional for Windows using VCS 4.1	Design, implementation, and customization of Cluster Server 4.1 solutions on Microsoft Windows platforms	\$7.50
